SushiDaily: salmon nigiri

The iconic classic of the sushi world. Simple, classic, elegant. You'll find Nigiri on the menu at sushi establishments the world-over. Never outplayed or overdone, you can't have too much of a good thing. Nigiri is a traditional type of sushi combining sticky sushi rice, moulded by hand, with a slice of fish or vegetable on the top.

What is sashimi? Well, first of all it isn't strictly sushi. Sashimi is actually a raw fish that is traditionally sliced into the pieces – nothing else. But don't let it's simplicity fool you, not only do people believe it has great benefits, it's freshness also gives it a unique taste that'll work great with soy sauce.

KIMCHI RICE MAKI

COLD

Tangy kimchi rice rolled with carrots, wrapped in nori seaweed. With that extra bit of spicy mayo sauce. A zesty, mouthwatering bite that packs a punch.

Feel Good Feast

KATSU CURRY ROLL

A classic re-rolled. Crunchy breaded chicken surrounded by fresh carrot and lettuce wrapped in nori seaweed and sushi rice, topped with rich katsu curry mayo, sushi sauce and topped with crunchy fried onions.

POPCORN SHRIMP ROLL

It's cucumber, avocado, and carrot all neatly wrapped in nori seaweed and sushi rice. With a crunchy tempura popcorn prawn on top drizzled with spicy mayo and sushi sauce for the win.
